

Alumni-vereniging van de
Fysisch Geografen en
Aardwetenschappers van de
Universiteit van Amsterdam

UNIVERSITEIT VAN AMSTERDAM

Amsterdam, 2021

Esteemed Master in Earth Science,

Congratulations with your graduation!

We would very much like to draw your attention to the alumni association of the Earth Scientists and Physical Geographers of the University of Amsterdam.

This association organizes drinks, meetings, lectures and excursions for the alumni and aims at strengthening the relationships among the alumni themselves as well as to maintain contacts between the School and the professional field.

You will receive a Lulofs newsletter several times a year to keep you up to date.

You automatically can become a member, once you have graduated. The only thing you have to do to be kept informed on the activities of Lulofs, is to inform us on your email and home address, also when these will change in the future. To make sure we have these details, you can sign up by emailing l.h.cammeraat@uva.nl or info@lulofs.org to keep you informed.

We hope to see you many times on our activities!

The board of Lulofs
